Send alerts when reports complete: OFF

New Report ⓘ

Room: ALL ROOMS | Period: 7 days | Interval: 1 Minute | Save

Start: Now | End: January 3rd, 1:03 pm | # Data Points: 10000

Scheduled Reports ⓘ

(No reports are currently scheduled.)

Completed Reports ⓘ

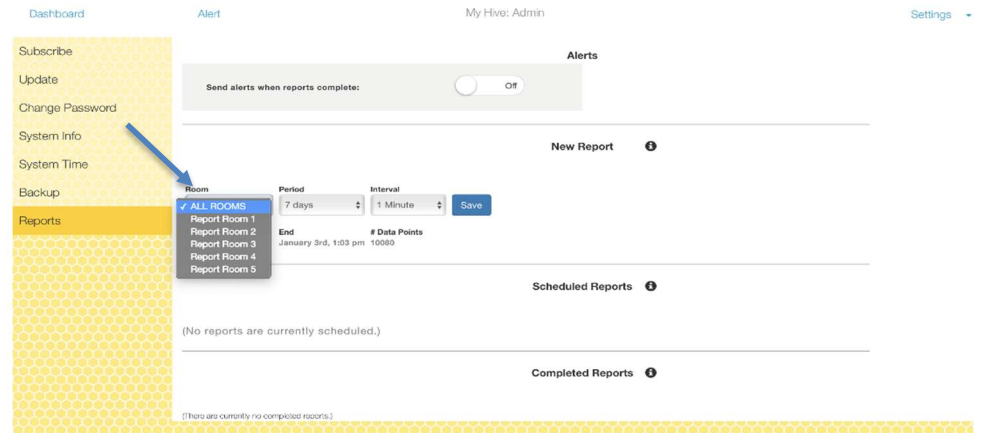

(There are currently no completed reports.)

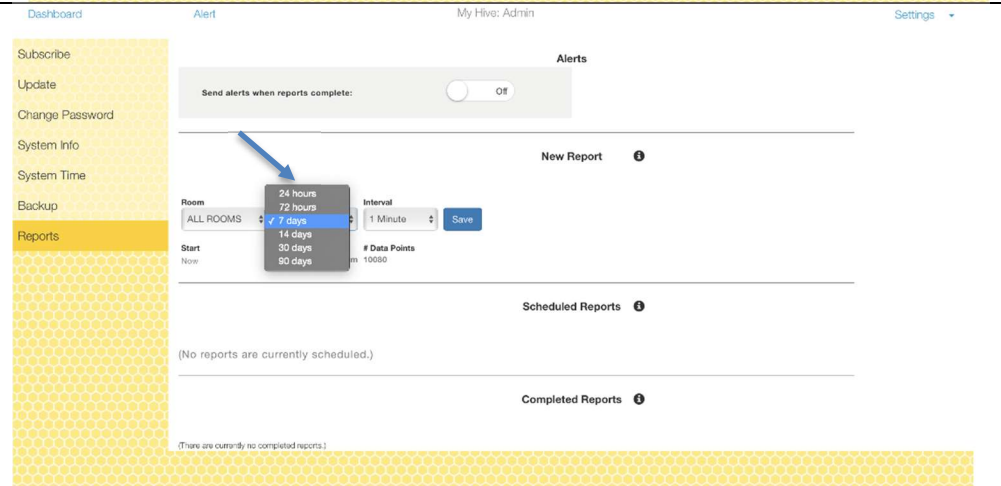

You can now setup the reporting parameters

Data requested will start to be collected when the report parameters are saved. When the collection period has ended the report will be ready for download.

Select the room(s) to be included in the report.

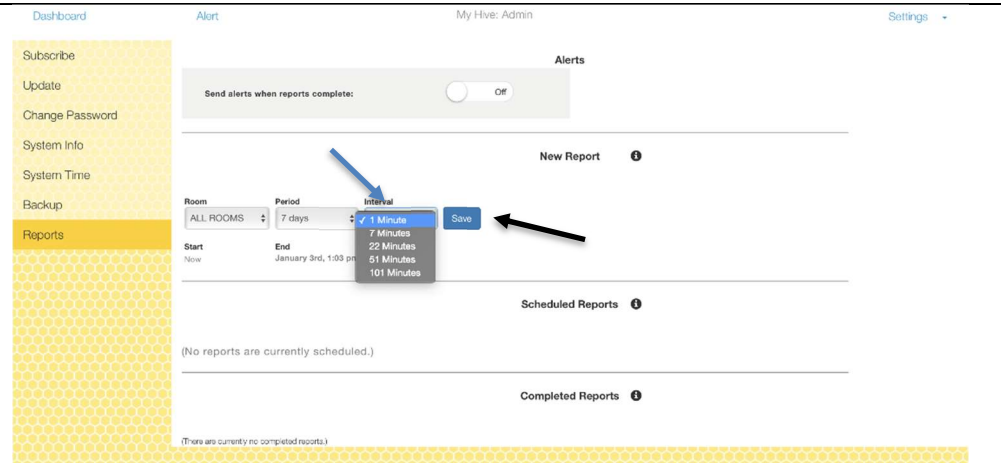

Select the number of days of data to capture.

Select the data interval, i.e. the time between each data point.

Then *Click Save*

The report is now scheduled, and data collection will begin

The defined report now appears in the “Scheduled Reports” section of the window. You can now define the next report

The Scheduled Reports section now shows the report and the requested parameters. *Click the Cancel button to cancel the report.*
